Shelf Life: Shelf life is approximately 24 months from packaging date. Product should be kept in a cool, dry environment.

Transportation/Storage:

1. Trucks carrying this product will be loaded and transported in a sanitary manner following all requirements stated in this specification.
2. The product can be distributed at ambient temperatures. Prolonged storage at high temperatures, however, may reduce the functional shelf life of the product.
3. It is recommended that the product be stored in a cool, dry environment. Ambient storage is acceptable, but prolonged storage at high temperatures may reduce the functional shelf life of the product.

Regulatory/Finished Product:

1. Product must meet all defined specifications and functionality requirements throughout the declared shelf life.
2. All product is produced under a routine quality inspection in accordance with good manufacturing practices.
